SUMMARY

Salesforce Developer and Administrator with **3+ years** building, configuring, and integrating solutions across **Sales and Service Cloud**. Strong in **Apex, Lightning Web Components, and Flows**, with the security model, **REST/SOAP integrations**, data management, and hands-on **Agentforce and AI-assisted development** to ship faster. **Five Salesforce certifications** with an MS in Information Systems.

CERTIFICATIONS

Salesforce Certified: Administrator (ADM-201), Platform Developer I, Platform App Builder, Agentforce Specialist, DevOps Fundamentals

SKILLS

- **Development:** Apex, Triggers, Batch Apex, Lightning Web Components, Aura, Visualforce, SOQL/SOSL
- **Automation & Integration:** Flows, Validation Rules, Approval Processes, REST/SOAP APIs, Platform Events, Named Credentials, Data Loader
- **Platform, AI & Delivery:** Sales Cloud, Service Cloud, Security Model, Agentforce, Claude, Git, Salesforce DX, CI/CD, Agile/Scrum

EXPERIENCE

Student Salesforce Developer (Part-time)

Jan 2025 - Dec 2025

NEXIS Student Technology Lab, Syracuse University

- Built an **Agentforce assistant** (5 topics, 8 actions) with grounded, tested responses to relieve a support team fielding repetitive questions, resolving **70% of routine requests** and cutting **response time 60%**
- Configured **8 Flows, 25+ custom fields**, record types, and validation rules to automate business processes for **150+ users**, reducing manual effort and standardizing data across teams
- Delivered **12+ reports** and **3 dashboards** from gathered requirements and mapped processes, giving leadership real-time, actionable visibility into operations and user adoption

Salesforce Developer Intern

Jun 2025 - Aug 2025

PeopleLens (Remote)

- Integrated Salesforce with external systems via **REST APIs** and Platform Events, syncing **10K+ records per week** with monitoring and error handling to keep data consistent across platforms
- Managed **data quality** using **Data Loader**, deduplication, and cleansing as records scaled, reclaiming **~500 hours per year** and improving downstream reporting reliability

Salesforce Developer

Oct 2021 - Apr 2024

Accenture

- Engineered **Apex, triggers**, and **12+ Lightning Web Components** across **Sales and Service Cloud**, applying bulkification and governor-limit best practices to cut defects 60%
- Developed **Visualforce** pages and custom code integrating **3 external systems (SAP, DocuSign, HubSpot)** via **REST/SOAP APIs**, unifying data and removing manual cross-system entry
- Deployed releases from sandbox to production via **change sets and Git CI/CD** at **95%+ test coverage**, and optimized SOQL and bulk Apex to cut **case resolution 30%**
- Established the **security model** with profiles, permission sets, and sharing rules across **15 profiles**, aligning access with least-privilege and compliance needs
- Standardized **20+ SOPs**, training materials, and end-user guides to drive adoption, lifting **user adoption from 45% to 85%** across the org

Salesforce Administrator

Mar 2021 - Aug 2021

Sanjay Ghodawat Institute

- Migrated **5,000+ records** via **Data Loader** with cleansing and validation, improving **data integrity** and reporting accuracy while modeling custom objects and relationships

PROJECTS

Secure Salesforce Integration Platform: Apex REST, Named Credentials, External Services, OAuth

- Designed **Apex REST integrations** with **External Services and Named Credentials** for secure external data exchange, with **error handling and monitoring** for high-volume REST and SOAP callouts

EDUCATION

Syracuse University - MS in Information Systems

Aug 2024 - May 2026

Shivaji University - Bachelor of Engineering

Aug 2017 - Jul 2021
